Subject: Ergo - Economic Warning China Slow Down - PDF

The recent arrest of Wang Baoan, China's National Bureau of statistics Chief, casts further doubt upon China's notoriously sketchy GDP growth numbers.

Ergo's sources and analysis reveal China's growth numbers are much bleaker than acknowledged by even increasingly pessimistic conventional analysis.

[Click here to view](#) (pdf) Ergo's source insights as well as key issues to watch for in China in 2016.

To discuss Ergo's findings on China, or in other key spots around the world, please direct comments or questions to china@ergo.net.

Wishing you the best in the Year of the Monkey.

Regards,

RP Eddy
CEO, Ergo
